SPECIAL NOTICE

TO HOSPITAL TRAINING SCHOOLS

± ± ±

We make a specialty of Student Nurses' Outfits. Send us a sample of the style of material you are using. Tell us how the uniform is made and we will make them for you, cut to measurements for your student nurses' outfit.

In this way the student nurse will have garments that will fit her and will not have to be altered in any way when she arrives at the hospital.

We can supply her with Uniforms, Aprons, Bibs, Collars, Cuffs and Caps.

We are very much pleased, in this Catalogue, to quote lower prices than we have been able to do for some time. We believe that our customers will appreciate this and we can assure them that our prices will always be as low as possible considering the quality of merchandise.

Special Notice to Training Classes

To graduating classes, when entire class buys their Uniforms from us, we will cut to special measurements without extra charge.

In ordering Uniforms from us, they can be made in one or two-piece, plain or gathered back skirt. If changes desired are designated when ordering, any waist can be put on any skirt, or any sleeve on any waist.

Every garment sold by us is sold under the direct guarantee, that if for any reason whatsoever, you are not perfectly satisfied, you are to return the goods at our expense.

No other Uniform has been so highly endorsed or is more universally worn as Randles makes of PRE-SHRUNK Uniform.

Our Uniforms and Aprons have been officially adopted by the Lunacy Commission of the State of New York, and is the official uniform worn in all hospitals for the insane in this State. They are also worn in the hospitals for the insane in the States of Maine, Massachusetts, Rhode Island, Connecticut, Michigan, Tennessee and West Virginia, as well as by private and public hospitals throughout the United States.

If you have not already adopted our Uniforms, why not do so at once. Let us demonstrate their superior qualities to your own satisfaction.

Made in a sanitary plant with over twenty-four thousand feet of floor space given to their manufacture.
